Chapter 3 - You Are Not Your Thoughts & Thinking

In this chapter we are going to talk about that You are not your thoughts & thinking. People who find it difficult when it comes to Overthinking – Ruminating – Negative Thinking believe that they are there thoughts and thinking which is not truly.

Your thoughts & thinking is something that has been conditioned within your Psychology & Mind since you were in childhood. Most of your thoughts and thinking is roots in past life experiences and beliefs you have created from life experiences or trauma that you have experience.

Have you ever realised that your thoughts & thinking will keep on Overthinking and Ruminating about things that happened in the past which is currently not your present circumstances or situation.

This is what we call Human Conditioning which all human beings have been conditioned.

I want you to understand readers that you're not your thoughts & thinking even if negative thoughts and negative thinking come into your mind.

So, the question we have to ask ourselves is how do we separate from Overthinking – Ruminating – Negative Thinking.

The Process of Observer & Observed

There are two main ways to identify Thoughts & Thinking

- 1) **Observer meaning** - a person who watches or notices something.
- 2) **Observed meaning** - notice or perceive (something) and register it as being significant. - make a remark.

The statement "the observer is the observed" means that the "you" that is doing the observing, whether it's a thought, a feeling, or a perception of the external world, is itself a product of what is being observed.

When the Observer is watching and noticing the Thoughts & Thinking of one's own consciousness then we realise that the Observer is the Observed. Everything within your life experiences has been observed by observer which is yourself.

When you realise that Thoughts & Thinking is something that the mind generates to understand the external world in which we live in and try to make sense of human life experiences. Then we realise that we can change our thoughts & thinking once we understand that Observer is the observed.

Everything within your life experiences have come from your own perception of the External World.

Which means there is no such thing as Good, Bad, Right, Wrong, Positive, Negative, Good, Evil because this is something that our mind generates through thoughts & thinking of the mind own perception of the external world.

All life experiences are generated by Thoughts – Thinking – Beliefs – Intentions – Actions. That why when you go through a Spiritual Change and your Psyche and Psychological Mind changes you realise there is No Self and you our living consciousness with all of Universe and reality.

The Overview of Life

- 1) **You** – Yourself – The Self – No Self –
Know Thyself
- 2) **Animals** – Living Creatures, Animals
- 3) **Others** – Family – Children – Spouse,
Partners, Friends, Colleagues,
Managers, Boss
- 4) **The World** – Material, External,
Internal, Spiritual, Physical Reality

Once you understand that Observer is Observed and in life you are connected to Yourself, Animals, Others, The World then you realise if you want to change your reality that you need to understand yourself and how thoughts & thinking truly works because only then can you find spiritual freedom and spiritual liberation.

**YOU ARE NOT YOUR THOUGHTS & THINKING –
YOU ARE A HUMAN BEING**

If you have negative feelings and emotions, it is only because your thoughts and thinking is telling you so. In life there is no such thing as Good or Bad thoughts or thinking because the Observer is watching and notices how Mind, Body, Soul, Spirit is feeling towards the thoughts & thinking it is generating.

The most important life lesson to learn is You Are Not Your Thoughts & Thinking.

Remembering that you are a Human Being living a Material External & Internal Reality which you have full control over.

You can create thoughts & thinking which is aligned to your high's morals, values, beliefs

The Process of Past Present Future

In life there is no such thing as Past Present Future because it something that your mind has generate. Your thoughts & thinking is creating your reality. In life we realise that everything that has happened to us has happened in the NOW and we are only living in NOW.

Time & Space makes us believe that there is Past Present Future but truly there is No Time & Space everything is Consciousness & God is within Everything.

The Human Mind creates its own Past Present Future so it can be secure & comfortable because the mind will become insane if it does have security that why we believe there Past Present Future.

Your Thoughts & Thinking has all been in NOW and in The Now that where living exist. It is important to realise that Thoughts & Thinking create your reality and once we understand that we can the Self-Power to control our life and become who we truly want to be then life change forever.

If you believe your thoughts & thinking is who you are as human being then that is completely not true. You are a Human Being living in Earth because God has created you to fulfil a purpose in life and reality which is why you been created in living form.

Each Human Being has a Special Unique Gift and Talent to share with reality and that why you

cannot believe that you are your thoughts & thinking.

How Can we understand that we are not our Thoughts & Thinking? The way to really learn this is to do Prayer – Meditation – Mindfulness. When we connect to stillness and silent which connect to whole cosmic and universe. Have you ever realise when your sleeping in bed that your Mind go to a Spiritual State in the Mind which has no barriers & limitations.

This is our nature spiritual state as human being we are everything and also we are nothing we are living as a Empty Spiritual Energy and we are all of universe and cosmic.

In Prayer – Meditation – Mindfulness our human mind connect to divine and source of all of living energy which has no Space or Time.

That why I have always reccommed to do 5 Spiritual Practice and connect to No Self & Selflessness.

Why It Is Important That You Are Not Your Thoughts & Thinking

- 1) Lord God has created you in Reality to fulfill a Spiritual Life Purpose & Spiritual Calling**
- 2) You are not your negative thoughts, feelings, emotions you are a Human Being full of Spiritual Energy and potential**
- 3) The Mind is limitless and you can become anything you desire and want to be**
- 4) Observer is always the observed**
- 5) You create your life experience due to human contidioning**
- 6) You are Spiritual Energy living in Human Form**
- 7) You – Animals – Others – The World is all of Life Worldview if you realise this you change your thoughts & thinking**
- 8) Prayer – Meditation – Mindfulness connects you to Divine & Spiritual Eternity**

**9) Develop a Spiritual Practice will help you
to learn No Self & Selflessness**

**10) Lord God want you to be Spiritual
Free & Spiritual Liberated**

Different type of Business Structures/Ownership

A sole proprietorship, also known as a sole trader, is owned by one person and operates for their benefit. The owner operates the business alone and may hire employees. A sole proprietor has unlimited liability for all obligations incurred by the business, whether from operating costs or judgments against the business. All assets of the business belong to a sole proprietor, including, for example, a computer infrastructure, any inventory, manufacturing equipment, or retail fixtures, as well as any real property owned by the sole proprietor.

A partnership is a business owned by two or more people. In most forms of partnerships, each partner has unlimited liability for the debts incurred by the business. The three most prevalent types of for-profit partnerships are

general partnerships, limited partnerships, and limited liability partnerships.

Corporations' owners have limited liability, and the business has a separate legal personality from its owners. Corporations can be either government-owned or privately owned, and they can organize either for profit or as non-profit organizations. A privately owned, for-profit corporation is owned by its shareholders, who elect a board of directors to direct the corporation and hire its managerial staff. A privately owned, for-profit corporation can be either privately held by a small group of individuals, or publicly held, with publicly traded shares listed on a stock exchange.

A cooperative or co-op is a limited-liability business that can organize as for-profit or not-for-profit. A cooperative differs from a corporation in that it has members, not shareholders, and they share decision-making authority. Cooperatives are typically classified as either consumer cooperatives or worker cooperatives. Cooperatives are fundamental to the ideology of economic democracy.

Limited liability companies (LLC) and other specific types of business organization protect their owners or shareholders from business failure by doing business under a separate legal entity with certain legal protections. In contrast, a general partnership or persons working on their own are usually not as protected.

A franchise is a system in which entrepreneurs purchase the rights to open and run a business from a larger corporation.[10] Franchising in the United States is widespread and is a major economic powerhouse. One out of twelve retail businesses in the United States are franchised and 8 million people are employed in a franchised business.

Company limited by guarantee is commonly used where companies are formed for non-commercial purposes, such as clubs or charities. The members guarantee the payment of certain (usually nominal) amounts if the company goes into insolvent liquidation, but otherwise, they have no economic rights in relation to the company. This type of company is common in England. A company limited by guarantee may be with or without having share capital.

A company limited by shares is the most common form of the company used for business ventures. Specifically, a limited company is a "company in which the liability of each shareholder is limited to the amount individually invested" with corporations being "the most common example of a limited company." [12] This type of company is common in England and many English-speaking countries. A company limited by shares may be a

- publicly traded company or a - privately held company.

I have become an Evangelist and Teacher in Christianity and Faith based on Dag Heward Mill's Teachings. I owe my Christian walk with God to Dag Heward Mills and I am very grateful to be a part of Dag Heward Mills church and congregation.

Jiddu Krishnamurti (Spiritual Teacher, Philosopher) – Jiddu Krishnamurti is a very special spiritual teacher and philosopher that helped me with Spirituality and

faith. I discovered Jiddu Krishnamurti's Videos Series – A Wholly Different Way of Living with Dr Allan San Diego 1974 on YouTube when I was going through a mental health crisis and breaking up with my ex-partner. Because I watched Jiddu Krishnamurti videos talking about Spirituality, Meditation, Mindfulness, God, Faith, and Religion I started to become a Spiritual person and was practicing meditation and mindfulness. Jiddu Krishnamurti is the main reason why I have changed all of my life spiritually and become a very spiritual person. Jiddu Krishnamurti helped me to find Spirituality and God and I would have not been able to achieve Spiritually Freedom from the known without Jiddu Krishnamurti's teachings. I have a spiritual aura and spiritual presence because of the teachings of Jiddu Krishnamurti who is my spiritual teacher and spiritual philosopher.

Jesus Christ – Jehovah - Buddha – This has become the most important thing in my life to learn and understand Jesus Christ – Jehovah - Buddha. My faith, Spirituality, and Christianity & Buddhism are very important to me, and being with Jesus Christ –

Jehovah - Buddha makes me Spiritual. Being a Christian and learning about Faith, Spirituality, Buddhism Christianity has become everything to me and more. My love and devotion for Jesus Christ – Jehovah - Buddha is everything and that is why I can be an Evangelist, Activist, Teacher in Faith, Spirituality, Buddhism, Christianity.

My spiritual heroes are very important to me in my life story and journey, and they are all the reasons why I have become a spiritual person.

I want you to understand dear readers that you can become spiritual and live a meaningful productive life. My life has been very difficult and challenging but I would change any of my life experiences because they made me who I am today. The only things I would change about my life are the things I did to hurt other people like --ex-partners, family, and childhood abuse.

My life is not perfect by any means, but I have learned very important life lessons that I want to share in my life story. Please remember readers I am only a human being, and I am not perfect but I want you to feel

inspired and hopeful about your future, and by reading my books you will find faith, Spirituality, Buddhism, Christianity and become the person you want to be.
